

Paying for Adult Social Care

Residential Care

If you are moving into a residential or nursing home, we will work out how much we think you should pay towards the cost of your care. This will be worked out by using guidelines that have been set by the Government. These guidelines are explained in [Paying for Residential and Nursing Care](#).

Non-Residential Care

An explanation of what you will pay for receiving a non-residential care service such as Home Care or Day Care is given in the [Paying for Non-Residential Care](#) guidance document.

Short Term Breaks

The cost of a short term break is explained in the [Short Term Breaks](#) guidance document.
