

Over Hulton Neighbourhood Forum

Appendix 2b Description of the proposed Over Hulton Neighbourhood Area boundaries

The proposed Over Hulton Neighbourhood Area (OHNA) covers the majority of Over Hulton, with key boundaries being drawn at appropriate places.

The North boundary of the OHNA is the M61 motorway, a clearly distinctive boundary which makes an appropriate northern border to the area.

The East boundary of the OHNA is the boundary with Westhoughton Town Council

The South boundary of the OHNA is the boundary with Atherton (Wigan) Council

The West boundary of the OHNA is predominantly the boundary of Logistics North. Where Logistics North does not extend to the whole of the proposed western boundary, an appropriate line has been drawn to the North and South boundary. Logistics North has been excluded from the proposed OHNA as much of the area has already been developed or has agreed planning in place. Therefore it would not be appropriate for the OHNA to include this site.

We consider these to be appropriate boundaries that capture the majority over the Over Hulton area, while considering key aspects such as the M61 motorway and area which has already been developed by excluding Logistics North.
