Park Features:

This park is built on what used to be Horwich Station. The trains have long gone, but they've been replaced by a very good little park. There's plenty of space for the kids to let off steam, paths to explore, a small stream that runs through the park and sports facilities.

The Senior Play is located next to the Chorley New Road entrance and the Toddler and Junior Play is located next to St John Street entrance.

The width of the pedestrian access gate is suitable for wheelchairs at 1m.
